[0002]) in a device disclosed in document 1.

The invention set forth in claim 7 does not involve an inventive step in the light of document 1 and document 2. A person skilled in the art could easily apply the feature of "using luminol or an oxalic acid ester in a chemiluminescent device", as taught by document 2 (claim 4 and paragraph [0002]) in a device disclosed in document 1.

The invention set forth in claim 8 does not involve an inventive step in the light of document 1 and document 2, and document 3 and document 4, cited in the international search report. A person skilled in the art could easily apply the feature of "using strontium aluminate as a photoluminescent material" as taught in document 3 (paragraph [0023]), and "using europium as a fluorescent material) as taught in document 4 (paragraph [0024]) in a device disclosed in document 1.

In the inventions set forth in claims 2-5, the feature of a "mouthpiece having a luminescent body or phosphorescent body" is not disclosed in any of the documents cited in the international search report, and is not obvious to a person skilled in the art.

Therefore, the inventions set forth in claims 2-5 are not disclosed in any of the documents cited in the international search report and are not obvious to a person skilled in the art.
